LEADERSHIP DEVELOPMENT PROGRAM FOR SIMULATION EDUCATORS

Expertise in simulation is expected of participants in this year-long leadership development program. Participants focus on maximizing their leadership potential to advance simulation initiatives in nursing education and practice. During the year, participants examine issues related to research in simulation, curricular integration, the role of simulation in interprofessional education, and managing and directing simulation activities within a school of nursing or a service setting. The program fosters individual growth, interpersonal interactions within the group, and networking with previous cohorts to build on and develop new simulation initiatives.

Participants Will:

- Examine key issues in the design, development, use, and integration of simulation in nursing education.
- Discuss the simulation initiatives of major national and international organizations.
- Work on a group project that creates or expands simulation content for the web-based Simulation Innovation Resource Center (SIRC).
- Create a three-year, focused career development plan.
- Implement an individual plan for leadership development.
- With an executive coach, explore results from a leadership assessment instrument.

Program Session: January - December 2018

Application Cycle: April 10 - September 30, 2017

Tuition: $3,500 - NLN Members, $4,500* - Non-members*

*Become a member today for instant savings on program tuition.

Program Includes:

- Fifteen Simulation Innovation Resource Center (SIRC) Courses
- Access to the NLN Leadership Webinar Series
- Executive Coaching Sessions
- NLN Simulation Leadership Monthly Coaching Sessions
- Invitation to Laerdal SUN (Simulation User Network) Meeting**
- Participation in an orientation session and a Leadership Retreat**
- Registration for the NLN Education Summit*
- Pre-Summit Leadership Workshop*

**Participants are responsible for travel and lodging costs.

Who Should Apply:

This program is designed for the experienced simulation nurse educator who wishes to assume a leadership role in simulation. Participants must apply to be accepted into this competitive program and will be selected based on experience and quality of application responses. The program is limited to 20 participants.
